INSTRUCTIONS

Carbo Block U-Lock

40mm (H-27808A), 57mm (H-30301A)

75mm (H-29934B)

To change headpost lock from front to side position, remove shackle, turn post and re-install shackle.

Remove U-lock to let block swivel freely.

Maintenance

Harken equipment requires minimal maintenance, but some is required to give the best service and to comply with Harken's limited warranty.

Keep equipment clean by frequent flushing with fresh water. Lubrication is not required, but lubricants which will not attract dirt may be used like McLube®.

In corrosive atmospheres, stainless parts may show discoloration around holes, rivets and screws. This is not serious and may be removed with a fine abrasive.

Important: Exposure to some teak cleaners and other caustic solutions can result in discoloration of part and is not covered under the Harken warranty.

Warranty

For additional safety, maintenance and warranty information see www.harken.com/manuals or the Harken® catalog.
